Typography

Contega’s typography balances character with clarity.Manuale brings a considered, human quality to headlines and key brand messages, while Inter provides a clean and highly legible foundation for body copy, navigation and functional information.

Together, they create a distinctive but practical system that works consistently across digital, print and presentation environments.

Typography Usage

Typography should create a clear and consistent hierarchy across all communications.

Use **Manuale** for headlines, subheads and key statement and **Inter** for body copy, links and functional information. Inter may also be used for headlines where a cleaner, more functional look is required. Keep typography simple, spacious and consistent.
